Caller Remarks:

During investigation of fish kill sheen noticed on water in a stream that flows into black river.

DEC Investigator Remarks:

8/11/05: Met with ECO Roderick. Sheen is iron bacteria not petroleum. Further investigation found a manure lagoon had breached and released 7−10 million gallons of manure. Some of which had reached the Black River causing the fish kill. Div of Water and DLE BECI are the leads for this incident. (jlr)

Caller Remarks:

Warm weather caused melting and manure run off. Went into ditch. So far they pumped 75000g of manure and ice melt out of ditch. Ditch runs into pond and into another ditch. Still working on clean up.

DEC Investigator Remarks:

03/08/14: CH TELECON W/ RYAN AIKEN OF HEMDALE FARMS. ON 3/7/14, THE FARM STARTED SPREADING MANURE IN THE MORNING ON A 40 ACRE FIELD. THE AVOIDED AREAS OF KNOWN RUNOFF AND WERE CONSERVATIVE ON THE SET BACKS FROM DITCHES AND RUNOFF AREAS BECAUSE THEY HAD CONCERN OF RUNOFF FROM WARMING TEMPS SINCE THE GROUND IS FROZEN AND SNOW MELT WOULD RUNOFF RATHER THAN SOAK INTO THE GROUND. IN THE AFTERNOON THEY NOTICED THAT SNOW MELT FROM WARMING TEMPS WAS CAUSING RUNOFF OF THE MANURE. IT WAS PRIMARILY OCCURRING IN TWO LOCATIONS ON THE FIELD. THE RUNOFF WAS GOING TO A DITCH. SPREADING WAS DISCONTINUED AND AN ALL OUT EFFORT TO CONTAIN AND RECOVER THE MANURE WAS INITIATED. THE FARM HAD 8 PEOPLE WORKING UNTIL ALMOST MIDNIGHT TO CONTAIN AND RECOVER MANURE FROM THE DITCH. THEY HAD APPLIED APPROX 300,000 GALLONS TO THE FIELD. THEY DID NOT SPREAD WITHIN A 100 FT OF RUNOFF AREAS. FROM WHAT THEY RECOVERED LAST NIGHT, AIKEN ESTIMATES 50,000 − 75,000 GALLONS MADE IT TO THE DITCH, OF WHICH THEY RECOVERED MOST OF IT. THEY HAD A VAC TANKER AND PUMPS AT THE DITCH RECOVERING THE MATERIAL AND TRANSPORTING IT BACK TO THEIR LAGOON. THE PUMPING EQUIPMENT IS STILL IN

PLACE. CURRENTLY THERE IS NO MANURE IN THE DITCH OTHER THAN A LITTLE RESIDUAL THAT MAY HAVE TO BE EXCAVATED OUT. THERE IS SOME MATERIAL PONDED BEHIND CONTAINMENT PLACED NEAR THE DITCH. THEY ARE CURRENTLY WAITING FOR A TRUCK LOAD OF ABSORBENT MATERIAL TO SOAK UP THE PONDED MATERIAL. THE ABSORBENT MATERIAL IS WHAT THEY USE FOR BEDDING. IT IS A RECYCLED CARDBOARD PRODUCT. AIKEN STATES THAT BEFORE THEY COULD GET THE MANURE CONTAINED SOME DID FLOW DOWN THE DITCH AND OVER THE ICE ON A NEIGBORS POND AND THEN BACK INTO A DITCH. WHERE THEY CONTAINED IT AT A SLUCE PIPE. THE POND IS APPROX 75 FT WIDE BY 150−175 FT LONG AND IT DOES NOT APPEAR THAT ANY OF THE MANURE WENT INTO THE POND, JUST FLOWED OVER THE ICE ON THE POND. THE LAST CONTAINED AREA IS ACROSS THE ROAD FROM 2042 BUFFALO ROAD. AIKEN STATES THEY CHECKED THE DITCH FURTHER DOWN STREAM ALL THE WAY TO FLINT CREEK WHERE THE DITCH EVENTUALLY EMPTIES AND THEY SEE NO EVIDENCE OF THE MANURE. CH ASK IF THEY TRIED TO INCORPORATE THE MANURE INTO THE FIELD ON FRIDAY. AIKEN STATES THEY MADE SEVERAL PASSES WITH A DISK, BUT GROUND WAS SO FROZEN IT DID NO GOOD. AIKEN STATES THEY WILL CONTINUE TO MONITOR OVER THE WEEKEND AND WILL PUMP OR ABSORB ANY MATERIAL THAT COMES NEAR THE DITCH. AIKENS SAFETY OFFICER CASEY CAN ALSO BE CONTACTED IF AIKEN IS NOT AVAILABLE. CH NOTIFIES PM, NANCY RICE AND ECO'S LUTZ AND BLANTON. LUTZ HAD BEEN NOTIFIED BY DISPATCH AND CALLED TO SEE IF SPILLS WAS GOING TO RESPOND. CH STATES SINCE SITUATION WAS CONTAINED AND CLEANUP HAD ALREADY OCCURED, CH WOULD INSPECT MONDAY UNLESS SITUATION CHANGED.

03/10/14: CH MEETS AT THE FARM WITH RYAN AIKEN & CASEY KUNES OF HEMDALE AND THEIR CAFO CONSULTANT, JIM. WE GO TO THE FIELD WHERE RUNOFF OCCURED AND RYAN SHOWS ME WHERE THE TWO MAIN RUNOFF LOCATIONS WERE AND HOW THEY TRIED TO IMPEDE THE FLOW. HE SHOWS ME WHERE HE EXCAVATED A SMALL COLLECTION SUMP WITH A BACK HOE TO CAPTURE AND PUMP THE RUNOFF FROM. THAT IS CURRENTLY EMPTY. THE IMPACTED POND IS IMMEDIATELY ADJACENT(WEST) TO THE FIELD. THERE ARE SOME SOLIDS OVER AN APPROX 30FT X 30 FT AREA ON THE SE CORNER OF THE POND. THE FARM IS GOING TO TRY AND SCRAPE THE SOLIDS OFF. THEY HAVE STRAW ROUND BALES IN THE DITCH LINE AND AT THE AREAS IN THE FIELD WHERE THE PRIMARY RUNOFF WAS OCCURING. THEY ALSO BROUGHT IN AN ABSORBENT MATERIAL, WHICH THEY USE FOR BEDDING IN THE BARNS, TO TRY AND ABSORB SOME OF THE POOLED MATERIAL. THE FARMS CONCERN IS REGARDING FUTURE RUNOFF. A LARGE SNOW STORM IS PREDICTED FOR LATER IN THE WEEK FOLLOWED BY A WARM TREND. THE FARM IS CONCERNED RUNOFF WILL OCCUR AGAIN. THEY FEAR IF THEY LEAVE DITCHES PLUGGED WATER WILL BACK UP AND RUN OFF IN AREAS THEY CAN'T CONTROL. CH RECOMMENDS REMOVING ABSORBENTS AND STRAW IN DITCHES NOW AND THEN PUTTING OUT FEWER BALES IN STRATEGIC LOCATIOSN TO TRY AND FILTER OUT SOLIDS AND STILL NOT BACK UP THE FLOWS. THE RUNOFF WATER IN THE DITCH DOWNSTREAM FROM FIELD LOOKS CLEAR. OVERALL EFFORTS SEEM ADEQUATE. CH WILL MONITOR WHEN THAWING OCCURS. NANCY RICE NOTIFIED. SOME PICTURES TAKEN.

03/14/14: CH INSPECTS THE DITCH CROSSING JUST SOUTH OF HEMDALE FARMS. THE WATER DOES HAVE SOME BROWNISH DISCOLORATION, BUT THERE ARE NO NOTICEABLE SOLIDS OR ODOR TO THE WATER. CH TRIES TO INSPECT THE DITCH CLOSER TO THE DISCHARGE POINT, BUT THEY ARE ALL FILLED WITH SNOW. THE FIELD IS STILL SNOW COVERED.

06/8/15: REVIEW OF FILE. SPILL SHOULD BE CLOSED. CLEANUP HAD BEEN DONE TO THE EXTENT POSSIBLE. SOME MATERIAL DID RUNOFF TO STREAM. ONCE SNOW WAS GONE AND GROUND THAWED, REMAINING MATERIAL WAS INCORPORATED INTO THE SOIL BY PLOWING. SPILL SHOULD HAVE BEEN CLOSED IN SPRING OF 2014.

Caller Remarks:

trying to stop now. town of york

DEC Investigator Remarks:

04/28/2017: THALL TELECON WITH CLINTON ZIMMERMAN AT 22:30. A C−CLAMP FAILED ON A 10 PIPE/HOSE, RESULTING IN THE RELEASE OF APPROXIMATELY 15,000 GALLONS OF LIQUID MANURE TO A TRIBUTARY OF BROWNS CREEK. A SOIL BERM HAS BEEN CONSTRUCTED APPROXIMATELY 300 YDS DOWNSTREAM. THERE IS A MODERATE FLOW IN THE DITCH. THE CONCENTRATED MANURE IS BEING PUMPED BACK INTO THE LAGOON AND ALSO PUMPED INTO SPREADER TANKERS.

04/29/2017: THALL TELECON WITH CLINTON ZIMMERMAN AT 06:10. APPROXIMATELY 45,000 GALLONS OF MANURE/WATER MIXTURE HAS BEEN PUMPED/RECOVERED FROM THE DITCH SO FAR. IN ADDITION TO PUMPING AT THE SOURCE, A PUMPING OPERATION WAS SET UP AT 02:00 AT THE EAST YORK ROAD UNDERPASS. MODERATE TO HEAVY TURBIDITY AND FOAM IS STILL EVIDENT IN A FEW PLACES DOWNSTREAM.

04/29/2017: THALL TELECON WITH ECO CHRIS WARD AND KEVIN NIEDERMIER (LIVINGSTON COUNTY EMERGENCY MANAGER) AT 06:30. THE

CONDITIONS AS REPORTED BY ZIMMERMAN ARE CONFIRMED. IT IS DECIDED TO BEGIN FLUSHING WITH FRESH WATER FROM A NEARBY POND.

04/29/2017: THALL ON SITE AT 09:00 WITH:

CLINTON ZIMMERMAN (RESPONSIBLE PARTY/SPRING LAKE FARMS: 315−729−1066) AMOS SMITH (LAWNEL FARMS: 585−233−8813) GERALD DENNING (TOWN OF YOUR SUPERVISOR: 585−204−7002)

GEORGE WORDEN (TOWN OF YORK HIGHWAY SUPERINTENDENT: 585−329−7757 JIM BOOTH (WNY CROP MANAGEMENT: 585−991−3153) JIM PECANO (LIVINGSTON COUNTY DOH: 585−943−0943).

SPRING LAKE FARMS WAS HIRED BY LAWNEL FARMS TO PUMP AND SPREAD THE LIQUID MANURE ON VARIOUS FIELDS OWNED BY LAWNEL FARMS. THE MANURE/LAGOON IS OWNED BY LAWNEL FARMS. THE DITCH ADJACENT TO THE LAGOON FLOWS EAST AND ENTERS BROWNS CREEK IN THE VILLAGE OF YORK. THE CREEK FLOWS BEHIND A RESIDENTIAL AREA BETWEEN CHESTNUT STREET AND EAST YORK ROAD AND CONTINUES EAST AND ENTERS THE GENESEE RIVER APPROXIMATELY 3 MILES FROM THE VILLAGE. THE CREEK IS VERY TURBID AND A STRONG MANURE ODOR IS EVIDENT AS IT FLOWS THROUGH THE VILLAGE. PUMPS AND TANK TRUCKS WERE USED TO RECOVER AS MUCH LIQUID AS POSSIBLE. SEVERAL RECOVERY POINTS WERE SET UP AND PUMPING CONTINUED THROUGHOUT THE NIGHT. CLEAR WATER (FROM A POND OWNED BY LAWNEL FARMS LOCATED ~2600' SW OF THE SPILL) IS BEING INTRODUCED TO THE DITCH ADJACENT TO THE LAGOON/MANURE RELEASE LOCATION. AS OF 10:30, APPROXIMATELY 75,000 GALLONS OF FRESH WATER HAS BEEN INTRODUCED. THE TURBIDITY IN BROWN'S CREEK CONTINUES TO DISSIPATE. AS OF 14:15 APPROXIMATELY 175,000 GALLONS OF FRESH WATER HAS BEEN INTRODUCED. FLUSHING WILL CONTINUE THROUGHOUT THE DAY. AMOS SMITH AND CLINTON ZIMMERMAN ESTIMATE THAT APPROXIMATELY 80,000 GALLONS OF MANURE/WATER MIXTURE WAS PUMPED FROM THE DITCH/CREEK DURING THE RECOVERY EFFORT.

05/01/2017: THALL AND NANCY RICE (DOW) MEET WITH AMOS SMITH ON SITE AT 10:45. THE TURBIDITY/FOAMING IN THE DITCH AND IN BROWNS CREEK HAS RETURNED TO NORMAL CONDITIONS. RICE WILL HANDLE ANY FOLLOWUP ACTION BY THE DEPARTMENT. NO FURTHER ACTION IS ANTICIPATED BY THE REGION 8 SPILLS SECTION AT THIS TIME.

MANURE	OTHER	0.00	UNKNOWN	0.00	UNKNOWN	SOIL SURFACE WATER

Caller Remarks:

The following information was received through the DEC website "Report an Environmental Violation Online" or sent directly by the complainant to an OPP dispatch mailbox:

Who Did It: Beavers Dairy Farm What Occurred: Cow slurry is overflowing into the creek near the farm and has killed all the fish in it. The water appears brown and has an odor. When Did It Occur: October 7, 2017 and is in progress currently, it has not been noticed before this date but has likely been going on for a few weeks. County: Chautauqua Municipality: Kennedy/Randolph Location Or Address: The creek running along Route 394 across from County Line Rd. How Did It Occur: From the slurry pit overflowing into the creek.

Complainants Name: Complainants Phone: Complainants Email: Date of Submittal: 10/07/2017

DEC Investigator Remarks:

10/10/17 ECO Jason Powers was on scene and identified dead fish from Beavers farm to Conewango Creek in a creek he identified as Dry Creek (more than a mile away). He said there were trout and many other types of fish, the odor was horrendous and the manure was thick and sludgy. He said Dale Beavers accepted responsibility for the release of manure. An ECO was to check on the creek over the weekend. The release from the manure pond stopped − there was no active release. Ted Myers and Brian Hourigan were

notified and would handle the cleanup next week with the farmer. Beavers farm have had historical problems and have violated previous consent orders for the same issues. No further action by spills is possible. Closed.

CALLER STATES THAT CREEK HAS WHITE FOAMY MATERIAL WITH A ODOR OF MANURE. ECO LAMPHIER ON SITE REQUESTING SPILL RESPONSE.

DEC Investigator Remarks:

10/20/06: DDAKE TELECON WITH ECO LAMPHIER AND CHAD KEHOE/SPILLS UNIT WHO ARE ONSITE. A FARMER (MARK HOSTETLER) SPREAD A LARGE AMOUNT OF LIQUID COW MANURE ON A NUMBER OF FIELDS IN THE AREA YESTERDAY. DUE TO VERY HEAVY RAINS LAST NIGHT AND TODAY, THE MANURE IS RUNNIG OFF OF THE FIELDS INTO A CREEK, AND SIGNIFICANT FOAM (FEW FEET) AND MANURE ODORS ARE PRESENT. NO FISH KILL OBSERVED TO DATE. LAMPHIER AND KEHOE INSPECTED CREEK OUTLET AT SENECA LAKE WHICH IS APPROX. 1/4−MILE AWAY AND ALSO FOUND FOAM/MANURE ODORS. DUE TO ONGOING HEAVY RAINS, IMMEDIATE RESPONSE ACTIONS ARE LIMITED. FORWARDED TO WATER DIVISION FOR FOLLOWUP. NO FURTHER ACTIONS REQUIRED BY SPILLS UNIT AT THIS TIME − SPILL FILE CLOSED.

10/20/06: 1315 KEHOE ON SITE WITH ECO LAMPHIER TO INVESTIGATE, MET WITH COMPLAINANT, HE DESCRIBED SEEING A LOT OF BROWN FOAM AND

SMELLING AMMONIA AND COW MANURE STARTING LAST NIGHT AND CONTINUING TODAY. ECO LAMPHIER REPORTED TALKING WITH MARK HOSTETLER, A FARMER ON CHASE ROAD. MR. HOSTETLER REPORTEDLY SPREAD LIQUID MANURE ON HIS FRESH CUT CORN FIELDS ON 10/19/06. HEAVY RAINS LAST NIGHT AND TODAY HAVE CAUSED RUNOFF OF THOSE FIELDS WHICH DRAIN TO THIS CREEK. ECO LAMPHIER REPORTED MR. HOSTETLER'S MANURE STORAGE LAGOON APPEARED HALF FULL WITH NO BREACHES. OBSERVED THE CREEK FLOWING ACROSS HIS PROPERTY, CONSIDERABLE FOAM PRESENT AT A CULVERT INLET AND OUTLET. DROVE/WALKED TO CREEK OUTLET TO SENECA LAKE, CONSIDERABLE FOAM IN CREEK NEAR OUTLET BUT DISSIPATED AFTER HITTING LAKE. TAN PLUME OF RUNOFF WAS EVIDENT IN LAKE. ODOR OF MANURE AT LAKE LEVEL. NO DEAD FISH SEEN. SITUATION RESULTED FROM FARMING OPERATION, NO FURTHER ACTION REQUIRED BY SPILLS; REFERRED TO DIVISION OF WATER. NFA − CLOSED

Caller Remarks:

caller reports manure overflowing pit

DEC Investigator Remarks:

4/2/2018 − Visted site 1800 hrs. Inspected 1 Million gallon concrete manure containment tank. Tank was full but no leaks noted coming from tank. Liquid manure found around tank area on ground which was contained to the farmers property and not impacting any water ways.

Met with owner Chuck Mras. He indicated on Saturday 3/31 the tank was almost full and they placed an agitator pump in the tank to begin mixing the liquid and solids to spread on fields. The hydraulics on the agitator pump malfunctioned causing it to the surface which caused an estimated 2000 − 3000 gallons of liquid manure to spill over the side and on to the farmers field.

Manure contained to property. Took Photos. NFA.jeo

WHEY	OTHER	0.00	POUNDS	0.00	POUNDS	SOIL IMPERVIOUS SURFACE
MANURE	OTHER	0.00	GALLONS	0.00	GALLONS	SOIL IMPERVIOUS SURFACE

Caller Remarks:

The caller said that she saw a material on the road that was black color and this morning with the rain it turned into a white color , soapy texture.the material goes down the hill.

DEC Investigator Remarks:

09/30/17: Performed site check. White soapy/foamy material running from low spots in roads down hill and to shoulders at some points. Larger depressions in road holding more liquid have a green tint to them. More occurrences on Fords Bush Rd. Spoke with caller who stated that large trucks come in bunches to the area and she doesn't know why because there are Amish farms all around her property.

Spoke with a few other neighbors on Fords Bush who Rd. One stated that the material was whey mixed in with manure. Chobani delivers excess whey to Frederick's Farm on Johhny Cake Rd. which is then put into the manure slurry pits. The mixture is then

spread to the fields of the farm and other surrounding farms including properties on Fiery Hill Rd. (JA)

10/02/17: Referred to DOW. Spill closed. (JA)

Caller Remarks:

yesterday subjects were speading manure and today the stream was all manure.

DEC Investigator Remarks:

08/17/2014 JM SPOKE TO JOHN NEAL. MANURE WAS BEING SPREAD ON FARM FIELD NEAR WARD AND PLATTEN ROAD. SOURCE OF MANURE WAS NOT KNOW, POSSIBLY FROM NIAGRA COUNTY FARM. WHILE TAKING WALK ON HIS PROPERTY, MR NEAL OBERVED MANURE IN CREEK/TRIBUTARY THAT FLOWS THROUGH HIS PROPERTY, WARD AND ALPS ROAD. TRIBUTARY DISCHARGES INTO JOHNSON CREEK.

08/18/2014 JM SPOKE TO NANCY RICE, WATER DIVISION, AND ADVISED HER OF REPORT. SPILLS DIVISION TO RESPOND. GY ON SITE AT ABOUT 11 AM. GY MEETS WITH JOHN NEAL AND MIKE BEALS AT THE INTERSECTION OF WARD AND ALPS ROADS, NORTH OF THE FIELD WHERE THE MANURE WAS APPLIED. NEAL OWNS 75 ACRES NORTH OF ALPS ROAD. HIS TWO WELLS (ONE DRILLED, ONE DUG) ARE CLOSE TO THE IMPACTED TRIBUTARY (WITHIN ABOUT 30 FEET). NEAL REPORTS THE WELL FOR THE HOUSE AT THE SOUTHWEST CORNER OF ALPS AND WARD IS ABOUT 40 FEET FROM THE IMPACTED TRIBUTARY. THE TRIBUTARY OUTLET TO JOHNSON CREEK IS ON BEALS' PROPERTY. THE WATER IN THE TRIBUTARY AT THE INTERSECTION OF WARD AND ALPS ROADS IS BLACK AND HAS AN ODOR. THE TRIBUTARY FLOWS NORTHWARD ONTO NEAL'S PROPERTY AND THEN ON BEALS' PROPERTY,

WHERE IT DISCHARGES TO THE CREEK. NEAL REPORTS THE FARMER SPREAD MANURE ON EAST SIDE OF WARD ROAD FROM ABOUT 2 TO 7 PM ON SATURDAY (8/16), AND HEAVY RAIN STARTED AT 5:30 OR 6 PM. NEAL REPORTS HE DID NOT NOTICE ANYTHING UNUSUAL SATURDAY NIGHT OR SUNDAY MORNING, BUT AROUND 6:30 OR 7 PM SUNDAY NIGHT THEY NOTICED AN ODOR AND OBSERVED THE TRIBUTARY ON THEIR PROPERTY TO BE IMPACTED. AT ABOUT 12 PM, NEAL AND BEALS TAKE GY TO THE OUTLET OF THE TRIBUTARY INTO JOHNSON CREEK ON BEALS PROPERTY. THE TRIBUTARY IS STILL IMPACTED AT THE OUTLET, BUT THE IMPACTS APPEAR TO DILUTE FAIRLY QUICKLY IN THE STREAM. NO FISHKILL IS NOTED.
GY TELECON WITH JED TORRY, THE FARMER, WHOSE NUMBER WAS PROVIDED TO GY BY PETE MILLER OF DEC SPILLS. TORRY IS ON WARD ROAD, GY DRIVES TO MEET TORRY. GY INVESTIGATES THE DRAINAGES ON EITHER SIDE OF WARD ROAD. THE DRAINAGES ARE IMPACTED ON THE EAST SIDE, WHICH IS THE SIDE WHERE THE MANURE WAS SPREAD. NO IMPACTS ARE NOTED ON THE WEST SIDE OF WARD ROAD. TORRY REPORTS HE SPREAD 8,000 GALLONS PER ACRE ON SATURDAY, AND STOPPED AROUND 5 OR 6 PM PRIOR TO ANY RAIN FALL. GY OFFSITE AT ABOUT 1PM. PHOTOS AND INFORMATION FORWARDED TO NANCY RICE IN THE DIVSION OF WATER, NO FURTHER ACTION REQUIRED BY SPILLS, SPILL CLOSED.

Material Spilled	Material Class	Quantity Spilled	Units	Quantity Recovered	Units	Resource(s) Affected
MANURE	OTHER	20000	GALLONS	0	GALLONS	SOIL, GROUNDWATER

Caller Remarks:

THE FOLLOWING IS A REPORT RECIEVED 7/28/14 FROM STUART THOMAS, NYSDEC

SPILL OF MANURE SLURRY AT BENNETT FARM (7291 CO. RT. 27 OUTSIDE HOWARD, NY)

JULY 23, 2014 ˇ 8 AM TO 9:15 AM ˇ STUART THOMAS WAS DRIVING ON STEPHEN´S GULCH ROAD (CO. RT. 27) JUST OUTSIDE THE HAMLET OF HOWARD, NY ON HIS WAY TO WORK. AS HE DROVE BY THE BENNETT FAMILY FARM, HE NOTICED A SIGNIFICANT AMOUNT OF LIQUID MANURE ON THE GROUND BETWEEN THE BARN AND ROAD. HE RETURNED TO THE FARM TO INVESTIGATE. THOMAS SPOKE WITH THE OWNER´S OF THE FARM (PHIL BENNETT, FATHER AND JAY BENNETT, SON) AND JASON ROSS (EMPLOYEE). THEY SAID THAT THEY DISCOVERED THE SPILL AT 5 AM AND CLEAN−UP BEGAN AT 5:10 AM. UPON THOMAS´S ARRIVAL, A SKID STEER WAS BEING USED TO PUSH SLURRY BACK INTO THE BARN WHERE PUMPS TRANSFERRED THE MANURE BACK INTO THE A.O.SMITH SLURRY STORE TANK. PHIL INSTRUCTED JASON TO START USING A VACUUM HOSE ATTACHED TO A PORTABLE TANK TO SUCK UP THE SPILLED SLURRY (THIS WAS RETURNED TO THE SLURRY STORE TANK ALSO).

APPARENTLY, A VALVE WAS LEFT ¾ OF THE WAY OPEN LAST NIGHT AND THE MANURE SLURRY DRAINED OUT OF THE SLURRY STORE TANK INTO THE BARN AND THEN FLOWED OUT OF THE BARN ONTO THE GROUND. PHIL SAID THAT THEY PROBABLY LOST ABOUT ONE THOUSAND GALLONS OF MANURE

SLURRY TO THE BARNYARD/FRONT LAWN AREA. HOWEVER, JAY ESTIMATED THAT THEY LOST 10,000 TO 20,000 GALLONS. ALL THE SPILLED MANURE SLURRY WAS CONTAINED IN THE BARNYARD/FRONT LAWN AREA BY THE ROAD AND THE BARN. NO SURFACE WATERS WERE AFFECTED. SOME GROUNDWATER MAY HAVE BEEN AFFECTED SINCE THE SLURRY SLOWLY SATURATED INTO THE GROUND. NO SAMPLES WERE TAKEN OR ANALYZED.

UPON ARRIVAL BACK AT THE BATH DEC OFFICE, STUART THOMAS REPORTED THE SPILL TO THE AVON SPILLS DIVISION (KEVIN FARRELL − 585−226−5436) AND TO NANCY RICE IN THE WATER DIVISION.

JULY 23, 2014 − 5:30 TO 6 PM ˇ STUART THOMAS STOPPED AT FARM AGAIN. ALTHOUGH THEY HAD COMPLETED THE CLEAN−UP OF THE SPILLED MANURE SLURRY, THE AREA RECEIVED A HARD RAIN IN THE LATE AFTERNOON. THEREFORE, RAIN WATER HAD RE−FILLED THE LOW AREAS WHERE THE MANURE SLURRY HAD RESIDED. THEY WILL WORK ON CLEANING UP THE AREA AGAIN TOMORROW. THOMAS TOLD THEM THAT HE WOULD STOP AT THE FARM ON HIS WAY HOME FROM WORK TOMORROW NIGHT FOR AN UPDATE. JULY 24, 2014 − 5:30 TO 6 PM ˇ STUART THOMAS STOPPED AT FARM AGAIN. THEY HAD ALL OF THE SPILLED MANURE SLURRY CLEANED UP (THEY SCRAP THE GROUND AND TOOK SOME OF THE DIRT ALSO). THEY SPREAD THE SLURRY/SOIL MATERIAL THAT THEY PICKED UP ON FIELDS. TOOK SOME PHOTOS.

JULY 28, 2014 ˇ 8 AM ˇ I STOPPED AT FARM AND THEY HAD FILLED IN AREA WITH DIRT AND GRAVEL. THIS WILL PREVENT THE ANY MANURE FROM EXITING THE BARN IF ANYTHING LIKE THIS SHOULD HAPPEN AGAIN. THEY ALSO PUT A LOCK ON THE VALVE TO INSURE THAT THE VALVE IS NEVER LEFT OPEN BY MISTAKE AGAIN.

PHIL BENNETT, CO−OWNER OF FARM. JAY BENNETT, 7291 CO. RT. 27, HORNELL, NY (CO−OWNER AND LIVES AT HOUSE AT FARM). JUANITA BENNETT, PHIL´S WIFE (LIVES AT 7293 CO. RT. 27 ˇ DOUBLE WIDE NEXT TO JAY´S HOUSE). HIRED WORKERS: JASON ROSS, TALL THIN (HIS SON WAS WORKING ON FARM ALSO) AND CHRIS O´BROCTON (HEAVY SET).

DEC Investigator Remarks:

MR.THOMAS INCLUDED PHOTOGRAPHS OF AREA AFFECTED BEFORE AND AFTER CLEANUP. HE REPORTED NO SURFACE WATER AFFECTED. MANURE−SLURRY HAS BEEN CLEANED UP AND HE REPORTS THAT THE AREA LOOKS GOOD.

NO FURTHER ACTION FROM DEC SPILLS STAFF. SPILL CLOSED 8/4/14

MANURE	OTHER	7500	GALLONS	0	GALLONS	SURFACE WATER

Caller Remarks:

CALLER STATES THERE WAS A TRACTOR TRAILER MVA. EMERGENCY PERSONNEL ON SCENE. PRODUCT IS ENTERING CREEK. TRUCK FUEL (DIESEL) AND CARGO (MANURE) ARE BOTH ENTERING CREEK AT THIS TIME.

DEC Investigator Remarks:

05/10/2010: LINDENFELSER ARRIVED AT SCENE WHERE STATE POLICE WERE DOING AN INVESTIGATION OF A FATAL ACCIDENT (JERRY DEUSENBERRY, DECEASED). A DEUSENBERRY FARM MANURE TANKER (7,500 GALLON CAPACITY) HAD GONE OFF A CURVE FLIPPING THE TANKER UPSIDE DOWN IN A RUNNING TRIBUTRY (~300 GPM) ABOUT 1.4 MILES UPHILL FROM THE COHOCTON RIVER VALLEY. COHOCTON FIREMEN REPORTED THAT THE LIQUID MANURE HAD BEEN GUSHING OUT INTO THE TRIBUTARY WHEN THEY ARRIVED BUT AT THE TIME OF MY ARRIVAL THERE WAS NO SUCH FLOW ALTHOUGH THE FLOWING WATER IS STILL CLOUDED BROWN. AT TIME OF ARRIVAL, THE TRIBUTARY WAS RUNNING CLEAR DOWN BELOW AT THE ROUTE 371 CROSSING.

PL DISCUSSED WITH DOUG WALKER (LOCAL FARMER AND FAMILY FRIEND) ABOUT THE POSSIBILITY OF TRAPPING THE FLOW OF MANURE DOWN BELOW. WALKER SAID THAT MANURE BEING HAULED WAS BOTTOM FLUSHING OF MANURE PIT THAT WAS DILUTED AND CONTAINED SOME SAND AND THEREFORE WAS

NOT CONCENTRATED B.O.D. THREAT TO STREAM.

PL TRAVELED TO TRIBUTARY CROSSING OF ROUTE 371 AND STILL FOUND CLEAN WATER. ON WAY BACK UP AND JUST BELOW THE PINE HILL ROAD JUNCTION, PL FOUND A DARK, CONCENTRATED MANURE FLOW IN STREAM, REPORTED IT TO WALKER AND ASKED FOR IMPOUNDING OF STREAM IN VALLEY TO COLLECT MANURE AND ADDITIONAL STREAM WATER TO DILUTE IT (PUMPING OF IMPOUNDED WASTE TO FIELDS WAS RULED OUT BECAUSE ADJACENT FIELDS IN VALLEY ARE NEWLY PREPARED AND LACKING ANY SOIL ANCHOR).

WE ASKED PERMISSION OF FIELD AND STREAM OWNER IN VALLEY TO DAM UP THE TRIBUTARY AND HE (TERRY WILKINS) BROUGHT OUT HIS OWN DOZER AND STARTED SCRAPING UP THE TRIB BOTTOM INTO A DAM; WALKER AND GEKE ARRIVED WITH DEUSENBERY'S LARGER DOZER AND HEIGHTENED THE DAM; WALKER NOTED THAT THE POLLUTION ARRIVED AND PL CONFIRMED IT AT 6:15 PM.

JOHN AND RICH STEVENSON (LOCAL FARMERS) VOLUNTEERED AND BROUGHT THEIR NEARBY EXCAVATOR. THEY WERE ABLE TO BUILD THE DAM 5−6' HIGH AFTER IT WAS STARTED BY THE DOZERS. WHEN PL LEFT, THE WATER WAS WITHIN A FOOT OF THE TOP OF DAM.

5/11/10 LINDENFELSER CHECKED THE SITE IN A.M. AND FOUND THAT THE UPPER PART OF DAM HAD BEEN BREACHED IN CENTER BUT DID NOT FAIL DUE TO OBSTRUCTION OF BURIED ROUND HAY BALE. THE STABLE BALE PRODUCED A WATERFALL WHICH CREATED EXCELLENT AERATION OF FLOW; THE POOLED WATER WAS SOMEWHAT CLEAR.

IN P.M., LINDENFELSER RETURNED TO AREA TO CHECK ON COMPLAINT BY DEBBIE HOWE (4781 KIRKWOOD RD) OF RESIDUAL OIL ENTERING CREEK AT CRASH SITE ACROSS THE ROAD FROM HER HOUSE: PL FOUND STEVE SICK AND CREW FROM STEUBEN CO HWY DEPT REPAIRING RAILING AND EDGE OF BRIDGE; SICK AGREED TO SCRAPE UP THE FEW SQUARE FEET OF BLACKENED SOIL ON THE EAST BANK ON SOUTH SIDE OF BRIDGE WHERE SOME DARK DROPS OF OIL WERE SLOWLY SEEPING TO STREAM; SPILLAGE HAD OCCURRED FROM LEAKAGE OF INVERTED HYDRAULIC TANK ON UPSIDE DOWN WRECK; AT THE DAMMED SITE PL FOUND THAT THE EXCAVATOR WAS GONE AND THAT THE BALES AND STONE DAM HAD BEEN REMOVED.

AT 5 PM, PL MET WITH HOWE AND HER BOYFRIEND; OCCASIONALLY A BLOB OF OIL SHEEN WOULD SURFACE IN FLOWING STREAM; THE OILED BANK HAS BEEN REPLACED BY NEW GRAVEL ALTHOUGH THEY SAY THE DPW RAN OUT OF TIME AND DID NOT REMOVE ALL OILY SOIL BEFORE PLACING GRAVEL; THEY ARE CONCERNED ABOUT DEPOSITS IN CREEK WHICH LOOK MOSTLY LIKE SAND: WE AGREED A HEAVY RAINFALL WILL WASH THAT ALONG AND MAKE STREAM SAFE FOR THEIR DOGS; PL EXPLAINED THAT GROUNDWATER FLOW DRAINING TOWARDS THE STREAM WILL PREVENT CONTAMINATION FROM REACHING THEIR 20' DRILLED WELL.

07/15/10 CLEANUP COMPLETE. NO FURTHER ACTION.

08/01/2013: PAPER FILE REMOVED PER FILE RETENTION POLICY.

MOTOR OIL	PETROLEUM	1.00	GALLONS	1.00	GALLONS	SOIL
MANURE	OTHER	7500	GALLONS	0	GALLONS	SOIL SURFACE WATER

Caller Remarks:

Caller is reporting a spill of Cow Manure, Motor Oil and Diesel to wetland drainage. Caller states this is due to a traffic accident, rollover Tractor trailer accident.

DEC Investigator Remarks:

03/22/2010: MWD onsite 13:00 03/20/2010. Tractor trailer heading east on East DeKalb Rd., T. DeKalb, rolled vehicle discharging

contents of tractor and trailer − 7500 gallons of liquid manure (amount discharged unconfirmed at this time) and contents of fuel tank − 135 gallon capacity tank (exact amount discharged unconfirmed at this time). Fuel tank located on passenger side of tractor and contained negligible amount of undyed diesel fuel upon inspection. Hydraulic tank located on driver side of vehicle appeared to be competent and maintained its content throughout collision and righting. Small amount of motor oil staining present immediately adjacent to pavement. Collision occurred just east of Tanner Creek crossing and discharge migrated along roadway to drainage swale leading to Tanner Creek (Class D waterbody). Vehicle owned by Gebarten Acres farm located west on same road.

Upon arrival at site, Gebarten Acres owner, Greg Coller, and his staff had placed hay bales along all liquid manure channeling paths adjacent to road and were actively placing and removing absorbent pads on the floating fuel. One 55 gallon bag was full of spent pads upon arrival. Hay bales located at multiple locations along drainage swale toward Tanner Creek. Rain forecasted, owner said to get our contractor mobilized while he called insurance company. Eggan Excavating mobilized at 13:30.

MWD and ECO Canary walked drainage ditch to Tanner Creek discharge. Ditch began as wide swampy area and developed into channel approx. 2' wide prior to discharge with a mix of marsh and fast flowing sections throughout reach. Visible rainbow sheen emanating into Tanner Creek. 8 boom placed across opening. Pockets of fuel/sheen and manure throughout reach − mild petroleum odor and strong manure odor. Small over/under dam constructed and absorbent pads placed throughout reach. Drainage swale and surrounding area enveloped in dense brush and 3−4 inch trees. Most accessible route to Tanner Creek discharge would be by boat.

Emergency utility callout placed. Contractor arrived at 16:50 and excavation began after utility representative cleared path. Created staging area for impacted soils on sileage bunker at Gebarten Acres. Poly liner placed on asphalt to receive spoils. Excavation continued along roadway and into wide marshy area close to road where significant amount of petroleum had accumulated. Bermed drainage swale and placed boom and pads. Soil pile sampled and covered with poly. Excavated area leveled out and road swept. Will backfill and regrade when spoils are disposed.

Field notes, pictures, site sketch, and owner/insurance information in file. NYS police report #3459793 requested this date. Site discussed with RWE this date, details to be forwarded when available.

Contractor returned to site this date and called; vac truck used to skim impacted surface water. Light sheens persist throughout reach and into Tanner Creek. Spoil disposal and backfilling scheduled for 03/26/2010 pending lab characterization for landfill. [MWD]

03/23/2010: Site inspection, RP letters prepared this date. [MWD]

03/30/2010: NYS Police Report received this date. [MWD]

06/03/2010: Clean up report received 05/28/2010. Spill Closed MS this date. NFA letter prepared for RP this date. Final ISR prepared this date − no cost contractor cost incurred. [MWD]

>>> Bill Fish 7/4/2013 11:59 >>>

I am reporting a despicable situation at 109 Langley Road in Amsterdam NY. I have great concerns over well contamination and public health in the village of Minaville due to the animal waste and environmental conditions created by the residents of 109 Langley Road.

Several of the neighbors´ wells are within 100´ of these open cesspools and stacks of manure while there are several more within

200´. There is a running stream that runs through this barnyard that changes color as it passes through due to the contamination runoff. They also stack manure adjacent to this stream, which have been carried downstream during heavy rain.

We can no longer use our back yards the way we used to due to the stench and increased mosquito and horsefly populations. Attached are a few pictures which barley begin to illustrate the problem. I have read the public health law 206(18), which was my premise for contacting DEC. Pictures are Date/Time stamped.

Please help us recover our town from this ecological catastrophe.

−−−−−−−−−−−−− Response from Central Dispatch:

Thank you for your email. The NYS Environmental Conservation Law regulates concerns that adversely affects the environment, so I will be forwarding a spill report to the local DEC Spill on call personnel regarding the contamination of the stream. The other conditions that you describe and have provided photos of are not enforceable by DEC. NYS Public Health Laws, which are targeted for the protection of human health, are enforceable by state or county Health Dept or local Code Enforcement officials. The construction and maintenance of cesspools and septic systems are also regulated by those same health officials & health laws. You may contact the Montgomery Co Health Dept during business hours @ (518) 853−3531 to advise them of your concerns. If you call that phone number during after hours, weekends or holidays you will be forwarded to the Sheriff's Dept who can contact the on call health dept person if the condition requires immediate response.

Thank you, Dispatcher 23

DEC Investigator Remarks:

7/10/13 − Referred to DOW for follow−up. No petroleum or hazardous materials reported. Closed BB

Material Spilled	Material Class	Quantity Spilled	Units	Quantity Recovered	Units	Resource(s) Affected
MANURE	OTHER	8000	GALLONS	0	GALLONS	SOIL SURFACE WATER

Caller Remarks:

Pump failed in manure pit. Pit has been dug in creek to collect manure. They plan on pumping spilled manure into spreaders. Material has not reached Schoharie.

DEC Investigator Remarks:

5/28/15 − Approximately 8000 gallons liquefied manure lost to drainage when valve failed. Drainage drops into inaccessible ravine within 200 yards of spill location, flowing .75 miles before access to control spill is possible. At the head of the drainage area where the spill originated, excavator was used to recover material to the extent possible. Base flow in drainage ravine was negligible.

Plan was devised to flush the ravine with water from one of the farm ponds, with recovery set up at the lower access point approximately 100 yds before its confluence with Schoharie Creek. A pump rated at 300 to 400 gpm was used to pump the water into the drainage, with similar rated pump set at the lower access point to recover into manure spreader tanker. Effluent would then be spread on recently cut hay fields, as permitted under the farm's CAFO plan. Pump at pond was run for 3 hours at full capacity. Flow appeared at lower access point 3 hours after start of flushing. Recovery continued for several hours following.

No further action required. Referred to DOW (on site and in agreement with flushing plan during the day) for follow up and any compliance/enforcement issues associated with CAFO. Closed. BB

Caller Remarks:

The following information was received through the DEC website Report an Environmental Violation Online or sent directly by the complainant to an OPP dispatch mailbox:

Who Did It: Mammoser Farms, Hardt Road, Eden NY 14057

What Occurred: Dumping of cow manure in creek

When Did It Occur: Happens all the time, pretty much daily when they agitate their manure pond.

County: Erie

Municipality: Eden

Location Or Address: Walk the creek from behind Mammosers Farm all along Hardt Road

How Did It Occur:

Additional Details: The water in the creek smells horrendous and is gray. My children can no longer play in it because it is so polluted.

Date of Submittal: 07/31/2013

DEC Investigator Remarks:

8/1/13 REFERRED SPILL TO THE DIVISION OF WATER FOR FOLLOW UP. NO FURTHER ACTION BY SPILLS IS POSSIBLE. CLOSED. ELECTRONIC FILE ONLY.

Caller Remarks:

The following information was received through the DEC website Report an Environmental Violation Online or sent directly by the complainant to an OPP dispatch mailbox: >>> Bruce Vande 3/23/2014 14:34 >>>

Wheeler Creek in the town of Clayton in Jefferson County has been discharging foul smelling waste and foam into Sawmill Bay on The St Lawrence River for the last three weeks. This bay is used for water for several cottages on that bay and it is upstream from the Clayton Water Plant. This creek drains an area west of the hamlet of St Lawrence Corners where a large dairy is located. This dairy has been dumping manure slurry on snow and/or frozen ground.

Please investigate this problem and take the appropriate action to correct it.

This same event occurred last year but not as bad. The dairy recently increased the size of their operation. Road access to Sawmill Bay is available from Shady Shores Road off NYS12 just east of Cedar Point State Park.

3/22/2014

DEC Investigator Remarks:

3−24−14:DEC rec'd a report 3/23/14 of manure in Wheeler Creek that discharges to the St. Law. River/Sawmill Bay. Reported a waste/foam discharge for the past three weeks. Several cottages use the bay for water and it is upstream from the Clayton Water Plant. Suspect a large dairy located at/near Saint Lawrence Corners placing manure slurry on the snow/ground surface. Spills contacted ECO on duty, ECO stated an ECO had responded to this area last week, ECO will contact supervisor may respond to the site. Spill referred to DLE and DOW.(Cox)

MANURE	OTHER	0.00	GALLONS	0.00	GALLONS	SOIL

Caller Remarks:

ECO HUMMEL RECEIVED A CALL FROM CITIZEN (RICK WILSON) THAT THERE IS MANURE IN THE ROADSIDE DITCH (APPROX 200 FT LONG SPILL) ON PRE−EMPTION RD APPROX 1/2 MIULE SOUTH OF BELLONA STATION RD. UNKNOWN SOURCE AT THIS TIME.

DEC Investigator Remarks:

SPILLS UNIT TO HAVE RACHAEL PINKOSKI RESPOND AND REPORT FINDINGS TO WATER DIVISION. SPILL FORWARDED TO NANCY RICE (DIV OF WATER) AND ECO HUMMEL.

08/23/2017 RPINKOSKI ONSITE. THE STRETCH OF DITCH ALONG PRE−EMPTION ROAD BOTH NORTH AND SOUTH OF BELLONA STATION RD IS HEAVILY VEGETATED, OVERGROWN, AND RELATIVELY FLAT. NO FLOWING MANURE IS VISIBLE IN THE DITCH LINE. THERE IS NOTICEABLE MANURE ON THE NORTHERN SIDE OF PRE−EMPTION ROAD NEAR ADDRESS 607 WHERE THERE IS A FRESHLY SPREAD FIELD NEXT TO A RED METAL BARN. THE MANURE APPEARS TO HAVE BEEN OVER SPRAYED WHEN MAKING A TURN ON THE FIELD, BUT IS NOW DRIED OUT AND REACHES ABOUT 2FT DOWN THE SLOPE TOWARD THE DITCH. NANCY RICE AND ECO HUMMEL INFORMED OF FINDINGS. NO FURTHER ACTION BY SPILLS. SPILL CLOSED.

MANURE	OTHER	8000	GALLONS	0	GALLONS	SOIL SURFACE WATER

Caller Remarks:

CALLER ADVISED 8000 GALLONS OF LIQUID MANURE IS SPILLING ONTO SOIL INTO LAKE CAYUTA FROM AN OVERTURNED TANKER TRUCK. FD ON SCENE. CALLER IS REQUESTING A CALL BACK ASAP.

DEC Investigator Remarks:

01/08/15: JM FROM SPILLS RESPONDING. ECO ERIK DALECKI IS ONSCENE AS OF 1300 HOURS.

01/08/15: MZ TELCON WITH DEPUTY YESMAN WHO IS ON SCENE. TRUCK IS OLD GAS TANKER THAT HAS ROLLED OVER ON ITS TOP. APPROX 800 GALLONS OF MANURE HAS LEAKED SO FAR (STILL LEAKING) INTO DITCH. THE PASSENGER SIDE SADDLE TANK RUPTURED AND SPILLED DIESEL (EXACT AMOUNT UNKNOWN) TO DITCH. THE SPILLED LIQUIDS HAVE IMAPCTED A SWAMPY/MARSHY AREA ADJACENT TO LAKE CAYUTA. IT DOE SNOT APPEAR THAT THE LAKE HAS BEEN IMPACTED AT THIS TIME. FIRE DEPARTMENT'S ON SCENE AND HAVE DEPLOYED ABSORBENT PIGS AND PADS. COUNTY HAZ MAT TRAILER IN ROUTE.

PER YESMAN, OWNER OF TRUCK IS BERGEN FARMS. FARM OWNER IS CONTACTING A PERSON WITH A SEPTIC TRUCK THAT CAN COME TO THE SITE TO SUCK UP SPILLED LIQUIDS. DRIVER GOING TO GO TO HOSPITAL TO GET CHECKED OUT.

01/08/15: JM ON SITE WITH ODESSA FIRE DEPARTMENT AND PAUL MURPHY, FARM COMPLIANCE SERVICES. TANKER HAD BEEN UPRIGHTED AND WAS BEING REMOVED FROM SITE. KENNY'S SEPTIC HAD PUMPED REMAINING MANURE FROM TANKER AND TRANSFERRED TO SECOND TANKER OWNED BY BERGEN FARMS. APPROX 3000 GALLONS REMOVED. CHAD KEHOE RESPONDING FROM SPILLS UNIT. KENNY'S SEPTIC ALSO PUMPED LQUID FROM ROADSIDE DITCHES THAT HAD PULLED BEHIND SAND DAMS THAT TOWN HAD PLACED IN DITCHES AND CULVERTS TO CONTAIN THE FLOW OF MANURE. APPROX 3000−5000 GALLONS OF MANURE AND WATER PUMPED. CHECKED AREA OFF OF TWIN OAKS ROAD WHERE THE MANURE HAD SPREAD FROM ROUTE 228 TOWARDS CAYUTA LAKE. NO MANURE HAD REACHED THE LAKE. 1−2 INCH THICK LAYER OF MANURE SPREAD AMONGST TREES AND SHRUBS OVER LARGE AREA ON THE LEVEL AREA BETWEEN THE ROADSIDE EMBANKMENT AND THE LAKE. JM DISCUSSED WITH PAUL MURPHY AND BERGEN FARMS THE POTENTIAL NEED FOR ADDITIONAL CLEANUP OF MANURE. IN REGARDS TO THE ROADSIDE DITCHES NYSDOT NEEDS TO BE CONTACTED FOR THE REMOVAL OF THE SAND. JM TO CHECK WITH REGIONAL OFFICE REGARDING OPTIONS FOR THE CLEANUP OF THE MANURE THAT FLOWED DONE THE EMBANKMENT. AREA THAT HAS BEEN IMPACTED MAY BE STATE LAND.

01/12/15: KEHOE CHECK OF SITE FOUND IT COVERED WITH NEW SNOW. EXTENT OF SPILL AREA COULD NOT BE DETERMINED. STRAW BALES WERE PLACED ALONG A LOW AREA IN PREPERATION FOR SNOW MELT AND RUNOFF.

01/14/15: 1430 KEHOE AND RODABAUGH ON SITE TO CHECK. SITE COVERED WITH MORE NEW SNOW, UNABLE TO DETERMINE EXTENT OF SPILL AREA OR ALL FLOW PATHS. NO NEW BALES PLACED.

02/10/2015: PM TELCON WITH MIKE TOMASSI − FIRE CHIEF TOWN OF CATHERINE (607)857−2240. NEARBY RESIDENTS HAVE BEEN EXPRESSING CONCERN TO HIM REGARDING REMAINING MANURE AND DIESEL FUEL THAT WAS UNSABLE TO BE RECOVERED FOLLOWING ACCIDENT. AREA COVERED WITH SIGNIFICANT SNOW AT THIS POINT AND UNABLE TO BE MONITORED. SITE TO BE REINSPECTED WHEN SNOW MELTS.

03/26/15 1130 KEHOE CHECK OF SITE FOUND 6 OF SNOW STILL COVERING MOST OF THE AREA. A COUPLE OF SPOTS NEAR THE WETLAND WERE EXPOSED AND A SMALL AMOUNT OF MANURE WAS VISIBLE IN THE WETLAND.

04/03/15 KEHOE CHECK OF SITE FOUND MOST OF SNOW HAS MELTED. FLOW PATH FOR MANURE OBVIOUS NOW. SEVERAL PHOTOS TAKEN TO PROVIDE TO DOW AND DEC WETLANDS PEOPLE TO EVALUATE.

04/08/15 KEHOE CHECK OF THE SITE FOUND SILT FENCE ACROSS WATER FLOW PATH TO CATCH SOLIDS. WETLAND AREA IS FLOODED WITH A FOOT OR MORE OF WATER. NO OBVIOUS IMPACTS TO WETLAND. BOOMS AND PADS REMOVED FROM WETLAND AND PLACED ON THE BANKS. CHECK OF ROAD DITCH BY ROAD FOUND MINOR OIL AND DIESEL IMPACTS REMAINING ON ROADSIDE.

06/10/15 KEHOE CHECK OF SITE, GRASS GROWING NICELY. PETROL BOOM STILL REMAIN.

06/12/15 1215 KEHOE CALL TO PAUL MURPHY. REQUESTED BERGEN REMOVE THE BLACK SILT FENCE AND THE PETROL BOOMS FROM THE SPILL SITE.

06/16/15 1045 KEHOE CHECK OF SITE FOUND BOOM STILL IN PLACE.

03/09/16 KEHOE CHECK OF SITE, BOOM STILL IN PLACE. KEHOE REMOVED BOOM AND DISPOSED OF IT IN AVON DUMPSTER. SITE LOOKS GOOD WITH NO LASTING IMPACTS. WETLANDS DO NOT APPEAR TO HAVE LASTING NEGATIVE IMPACTS. NFA − CLOSED

FARMER SPREADING MANURE ON FIELDS AND LEAKING INTO FLINT CREEK.

DEC Investigator Remarks:

HEMDALE FARMS SPREAD LIQUID MANURE ON CUT CORN FIELD YESTERDAY 11/5/14. FIELD IS ADJACENT TO FLINT CREEK. GROUND WAS HARD AND MANURE DID NOT SOAK IN. TODAY WHEN IT BEGAN TO RAIN, THE MANURE RAN OFF INTO CREEK. SOME MANURE RUNNING ACROSS ADJACENT PRIVATE PROPERTY DRIVEWAY. THE FIELD IS ON THE NORTH SIDE OF FERGUSSON ROAD JUST WEST OF FLINT CREEK. SPILL FORWARDED TO NANCY RICE OF WATER. ECO STANSFIELD TELECON WITH CH. ECO ON SCENE AND CONFIRMS RUN−OFF OF MANURE TO STREAM. HE WILL DOCUMENT AND ADVISE NANCY RICE. ECO DOES NOT FEEL THERE IS ANYTHING THAT CAN BE DONE TO STOP THE FLOW AT THIS POINT AS THERE IS SO MUCH RUNOFF FROM THE RAIN. NO FURTHER ACTION NECESSARY BY SPILLS.

MANURE	OTHER	6000	GALLONS	0	GALLONS	SOIL

Caller Remarks:

6000 gallon tanker with a leak and they are trying to off−load the leaking unit.

DEC Investigator Remarks:

02/07/14: CH TELECON WITH JOHN WOLF. THE TANKER ACTUALLY OVERTURNED INTO A FARM FIELD DITCH APPROX 500 FT NORTH OF SAAP RD. WOLF'S FATHER WAS SPREADING MANURE IN THE FIELD AND MADE HIS TURN AT THE END OF THE FIELD TO MAKE A RETURN PASS AND WENT WIDE MAKING ONE OF THE TANKER WHEELS DROP INTO THE DITCH. THEY ATTEMPTED TO PULL THE TANKER OUT OF THE DITCH, BUT BECAUSE OF THE SNOW IT SLID DOWN THE EMBANKMENT AND OVERTURNED ONTO IT'S SIDE IN THE DITCH. MANURE WAS DISCHARGED OUT THE TOP HATCHES. WOLF PLACED SNOW IN THE DITCH TO DAM IT OFF AND PREVENT MANURE FROM FLOWING DOWN THE DITCH. APPROX 100 FT OF THE DITCH WAS IMPACTED WITH MANURE. THEY COULD NOT GET THE TANKER OUT OF THE DITCH WITH THE MANURE IN IT SO THEY PULLED THE BOTTOM PLUG AND DRAINED THE CONTENTS TO THE DITCH. THE DITCH IS NOT FLOWING. THEY CALLED THEIR CONTRACTOR THEY USE FOR EXCAVATING TO RESPOND TO THE SITE AND REMOVE THE MANURE FROM THE DITCH WITH AN EXCAVATOR, BUT HE COULD NOT GET IT STARTED BECAUSE OF THE COLD. HE WILL RESPOND FIRST THING IN MORNING AND DIG OUT THE DITCH. THEY WILL WIND ROW THE MANURE AT LEAST 30 FT AWAY FROM THE DITCH AND WILL EITHER BRING IN A FRONT END LOADER AND LOAD IT INTO SPREADER TO APPLY TO THE FIELD OR WILL JUST BLADE IT OUT INTO THE FIELD. CH CONFIRMS WITH WOLF THAT THERE IS NO FLOW IN DITCH AND THERE IS NO THREAT OF THE MANURE FLOWING TO A WATERWAY. WOLF SAYS THERE IS A TILE

STAND PIPE APPROX 500 FT AWAY ON THE OTHER SIDE OF THE ROAD AND THE MANURE WOULD HAVE TO MAKE IT TO THAT POINT WHERE IT WOULD ENTER A TILE THAT LEADS TO A CREEK. WOLF DOES NOT FEEL IT WOULD MAKE IT TO THAT POINT ESPECIALLY SINCE IT IS DIKED WITH SNOW AND THERE IS NO FLOW. THE NEAREST HOUSE IS APPROX 1/4 AWAY. THE LOCATION IS IN FIELD ON THE NORTH SIDE OF SAAP ROAD APPROX 1/2 WAY BETWEEN OLD PRE−EMPTION RD AND PLEASANT VALLEY RD. THE FIELD IS THE ONE WHERE SAAP RD MAKES ARE SHARP TURN TO THE SOUTH(WHEN HEADING WEST) CH TO INSPECT SITE ON MONDAY AND WILL NOTIFY NANCY RICE OF WATER SINCE FARM IS CAFO.

02/10/14: CH INSPECTS THE SITE TO CHECK ON THE STATUS OF THE CLEANUP. THE FARMER HAD AN EXCAVATOR WITH A DITCH BUCKET COME IN AND EXCAVATE THE MANURE FROM THE DITCH. CH CHECKS THE DITCH AT THE INTERSECTION WITH SAAP RD. THE DITCH RUNS NORTH/SOUTH. AT THE ROAD THE DITCH IS RUNNING CLEAN WITH NO EVIDENCE OF MANURE. THE SPILL LOCATION IS APPROX 500−600 FT NORTH OF THE ROAD. CH CHECKS THE DITCH AT SEVERAL LOCATIONS BETWEEN THE ROAD AND SPILL LOCATION. THERE IS NO EVIDENCE OF ANY MANURE. WHERE THE DITCH WAS CLEANED OUT THERE IS NO RESIDUAL MANURE REMAINING IN OR AROUND THE DITCH. THE MAJORITY OF MANURE AND DITCH DEBRIS WAS PULLED BACK INTO THE FIELD TO THE WEST OF THE DITCH. THE REMOVED MATERIAL WAS WIND ROWED APPROX 150−200 FT WEST OF THE DITCH. THERE WERE 2−3 PILES OF MANURE AND DIRT MIX STAGED APPROX 75 FT EAST OF THE DITCH. THE FARMER IS GOING TO SPREAD MANURE WITH SPREADER OR USE BLADE ON TRACTOR AND SPREAD IT OUT ONTO THE FIELD. THE CLEANUP IS SATISFACTORY. NO FURTHER ACTION NECESSARY BY SPILLS. CH NOTIFIES NANCY RICE OF WATER OF THE STATUS.

Material Spilled	Material Class	Quantity Spilled	Units	Quantity Recovered	Units	Resource(s) Affected
MANURE	OTHER	2000	GALLONS	0	GALLONS	SOIL SURFACE WATER

Caller Remarks:

Manure has gotten into a drainage ditch that runs into a creek in the area. Caller states it is a couple thousand gallons of manure at this time.

DEC Investigator Remarks:

4/30/13: DDAKE OF SPILLS TELECON WITH CLINT ZIMMERMAN AT 0005 HOURS − DUE TO A CLAMP FAILURE ON A LONG HOSE RUN, A RELEASE OF APPROX. 2,000 GALLONS OF LIQUID MANURE WAS REPORTED IN A FIELD AND ALSO TO AN ADJACENT MAN−MADE DITCH. THE DITCH RUNS ALONG THE EDGE OF A LARGE FIELD AND EVENTUALLY REACHES A SMALL CREEK WHICH FLOWS TOWARDS BUTLER. ZIMMERMAN NOTICED A SUDDEN DROP IN PRESSURE IN THE PUMPING SYSTEM AND IMMEDIATELY SHUT DOWN PUMPS. THERE IS STANDING WATER IN THE DITCH (NO FISH/NOT A CREEK) AND THEY QUICKLY PLACED SOME LARGE HAY BALES AND SOIL IN THE DITCH TO BERM OFF/PREVENT FLOW OF MANURE−IMPACTED WATER TOWARDS THE CREEK. THEY ARE CURRENTLY PLACING PUMPS IN THE DITCH AND REMOVING MANURE AND WATER. THE RELEASE HAS BEEN STOPPED AND CONTAINED. CHETTENBAUGH OF SPILLS UNIT TO INSPECT LATER TODAY.

04/30/13: CH MEETS ON SITE WITH THE RP, CLINTON ZIMMERMAN. THE RELEASE OCCURED IN THE MUCK FIELDS ON THE SOUTH SIDE OF WOJESKI

ROAD. A PRESSURE GAUGE ON THE 8 INCH LINE FAILED AT A LINE CONNECTION. THE BREAK WAS IMMEDIATELY ADJACENT TO A FIELD EDGE DRAINAGE DITCH. ZIMMERMAN STATES THAT ON NOTICING THE PRESSURE DROP, THEY STOPPED PUMPING AND LOCATED THE LEAK. HE THEN GOT DOWN STREAM OF THE RELEASE POINT AND PUT LARGE HAY BALES BACKED BY AN EARTHEN DIKE TO CONTAIN THE SPILLED MANURE. THEY THEN BROUGHT PUMPS TO THE SITE AND PUMPED THE WATER/MANURE MIX FROM THE DITCH TO THE ORIGINALLY DESTINED FIELD. ZIMMERMAN PUMPING FROM A MERRELL FARM LAGOON LOCATED ON THE NE SIDE OF WOLCOTT SPRING LAKE RD APPROX MIDWAY BETWEEN IT'S INTERSECTION WITH YATES RD AND SAELI RD. WAYNE CO SWCD WAS TO INSPECT SITE, BUT ZIMMERMAN DID NOT SPEAK TO ANYONE. HE STATES SOMEONE DID WALK THE DITCHES EARLIER AND HE DID NOT KNOW WHO IT WAS. CH INSPECTS THE DITCH. THE DITCH APPEARS TO HAVE A SLOW FLOW. THE WATER BEHIND THE HAY AND EARTH DAM IS SLIGHTLY TURBID, BUT DOES NOT HAVE MUCH OF AN ODOR. THERE IS VERY LITTLE FRESH WATER FLOW COMING INTO THE DITCH, WHICH TURNS AND FLOWS TO THE SOUTH. CH GOES APPROX 1/2 MILE SOUTH OF THE YATES RD INTERSECTION WHERE THE DITCH FLOWS UNDER WOLCOTT SPRING LAKE ROAD. THE FLOW AT THE ROAD CROSSING IS CLEAR. APPROX 200−300 YDS UPSTREAM THE WATER BEGINS TO SHOW TURBIDITY MOST LIKELY FROM THE RELEASE. THERE IS NO FISH KILL NOTED. ON A MAP IT APPEARS THE DITCH EVENTUALLY FLOWS INTO BUTLER CREEK. THE FARMER HAS CEASED PUMPING OUT THE DITCH AS HE FELT HE GOT AS MUCH AS POSSIBLE. CH TO FORWARD INFORMATION TO NANCY RICE OF WATER. NO FURTHER ACTION NECESSARY BY SPILLS.

05/1/13: CH GIVES RICE UPDATE PER FIELD INSPECTION. WILL FORWARD INSPECTION SHEET AND SPILL SHEET TO N.RICE.

Category: Known or probable release, where, without action, there is a potential for a fire/explosion hazard (indoors or outdoors), contamination of drinking water supplies, or significant release to surface waters.
Class: Unknown RP − DEC Field Response − DEC Corrective Action Required

Spill Date	Date Cleanup Ceased	Cause of Spill	Meets Cleanup Standards	Penalty Recommended
05/25/2013		TRAFFIC ACCIDENT	NO	NO

Material Spilled	Material Class	Quantity Spilled	Units	Quantity Recovered	Units	Resource(s) Affected
DIESEL	PETROLEUM	50.00	GALLONS	0.00	GALLONS	SOIL SURFACE WATER
HYDRAULIC OIL	PETROLEUM	50.00	GALLONS	0.00	GALLONS	SOIL SURFACE WATER
MANURE	OTHER	6800	GALLONS	0	GALLONS	SOIL SURFACE WATER

Caller Remarks:

Vehicle holding liquid manure rolled over on a sharp bend in the road. Contents spilled to the roadway and into the ditch and is heading towards a low lying wetland. Container holds 68000 gal, and container is leaking. Fire dept is en route. TNR towing is en route. −−−−−−−−−−− Steuben Co advising that FD on scene reporting the spill is now spreading into a drainage ditch and FD would like a callback & response.

CALL TIM MARSHALL OF STEUBEN COUNTY (FIRE COORDINATOR) at (607)769 6601

DEC Investigator Remarks:

05/25/2013: TH ARRIVES ON SCENE AT 18:35 AND MEETS WITH SCOTT WILKINS, BRIAN POLMANTTER (T&R TOWING AND ENVIRONMENTAL), AND FIRE

CHIEF. THE TOTAL CONTENTS OF THE MANURE TANKER (6,800 GALLONS), THE DIESEL SADDLE TANK (50 GALLONS), AND THE HYDRAULIC OIL TANK (50 GALLONS) HAS BEEN SPILLED TO THE GRAVEL ROADWAY AND ADJACENT DRAINAGE DITCHES. THE LIQUID MANURE IS BEING CONTAINED/SOLIDIFIED USING STRAW AND IS BEING LOADED INTO MANURE SPREADERS FOR LAND APPLICATION. AN UNKNOWN QUANTITY OF MANURE HAS ENTERED THE DRAINAGE DITCH (TH ESTIMATES 500 GALLONS) AND HAS RESULTED IN MURKY WATER 1/2−3/4 MILE DOWNSTREAM (19:45). NO FISHKILL IS EVIDENT. THE DIESEL AND HYDRAULIC OIL HAVE BEEN CONTAINED USING SORBENT BOOM AND PADS PLACED AT SEVERAL LOCATIONS DOWNSTREAM. T&R ENVIRONMENTAL WILL CONTINUE TO MONITOR THE SPILL AND CHANGE OUT SORBENTS AS NECESSARY. WILKENS WILL CONTINUE TO SOLIDIFY AND TRANSFER THE MANURE OFF SITE FOR SPREADING.

05/28/2013: SPILL REPORT FORWARDED TO LINDENFELSER, FISHERIES, AND WATER DIVISION.

06/13/2013: SPILL RE−ASSIGNED TO RODABAUGH; FINAL INSPECTION TO CONFIRM CLEANUP TO BE SCHEDULED.

06/21/2013: SR SPOKE WITH LINDENFELSER, WHO INSPECTED SITE 05/28/13 IN FOLLOWUP OF THALL. SPILL WAS CLEANED UP SATISFACTORILY, NO FURTHER ACTIONS REQUIRED.

Caller Remarks:

Spill to the ground. 5000 gallons. Clean up complete.

DEC Investigator Remarks:

RP reports that trailer carrying manure to be spread on local farm rolled over when its tire came off its rim. Spill was to home at address listed, covering front lawn and driveway. RP soaked up liquid manure with silage, then pushed off driveway. Will return next day to remove the remaining spillage and place for land application. No ditches or waterways were affected. Area served by public water. ~ctr~

Car vs Tanker Truck. Truck rolled over. Spilling it contents. Fire Department on scene.

DONNAN FARMS/ROBERT DONNAN 585−746−6897

DEC Investigator Remarks:

11/24/17: THALL OF SPILLS TELECON WITH ONSCENE FIRE CHIEF − LOSS OF UP TO 8,000−GALLONS OF LIQUID MANURE FROM TANKER TRUCK IN RURAL AREA. TRACTOR AND TRAILER ARE CURRENTLY ON THEIR SIDE IN DITCH. NO KNOWN RELEASE OF DIESEL OR MOTOR FLUIDS. MANURE HAS SPRAYED ONTO ADJACENT CORN FIELD AND IS LAYING IN SLOW FLOWING DITCH. FARM PERSONNEL QUICKLY PUT UP THREE EARTHEN BERMS ALONG THE DITCH AFTER THE ACCIDENT TO DAM UP THE MANURE AND PREVENT FURTHER FLOW TO THE EAST. TOW TRUCKS ARE ONSCENE TO UPRIGHT TRUCK; WAITING FOR PUMPER TRUCK TO REMOVE REMAINING MANURE FROM INSIDE THE OVERTURNED TRAILER. DDAKE OF SPILLS ONSCENE AT 1205 HOURS − NO VEHICLE COLLISION AS ORIGINALLY REPORTED (TRUCK DROVE INTO SOFT ROADWAY SHOULDER HEADING EASTBOUND AND TIPPED ONTO ITS SIDE). DIESEL SADDLE TANK APPEARS UNDAMAGED. ECO BRIAN WADE WAS BRIEFLY ONSITE THIS AM. FIRE DEPT AND LOCAL SHERIFF DEPT CURRENTLY ONSCENE; RURAL ROAD IS ROAD CLOSED. APPROX. 1000−GALLONS OF MANURE SPRAYED OUT OF TOP OF TRAILER ONTO ADJACENT CORN FIELD AND IS

POOLED IN AREAS AND ALSO SOAKING INTO GROUND. A FEW THOUSAND GALLONS OF LIQUID MANURE IS IN THE DITCH, WHICH FLOWS EAST ON THE SOUTH SIDE OF DOW ROAD. THREE EARTEN DAMS ARE HOLDING BACK THE MANURE AND WATER/POOLING THE LIQUIDS. APPROX. 175−YARDS TO THE EAST THE DITCH FLOWS INTO FEDERAL ROAD AND BRIEFLY TURNS SOUTH BEFORE TRAVELIGN BENEATH FEDERAL ROADWAY AND EXTENDING EASTWARD ALONG DOW ROAD. THERE IS ALMOST NO MANURE AT THIS INTERSECTION TO THE EAST. WYCO COMPANY SHOWS UP WITH PUMPER TRUCK AND PUMPS OUT TWO LOADS TRAPPED INSIDE THE OVERTURNED TRAILER AND TRANSPORTS TO LOCAL FARM (APPROX. 4000−GALLONS +/−). CREW/OWNER FROM DONNER FARMS ALSO ONSITE ASSISTING. DD SPEAKS WITH MATT FRANKLIN/DEC CENTRAL OFFICE AT 1305 HOURS TO GIVE UPDATE. AT 1350 HOURS THE TRUCK/TRAILER ARE UPRIGHTED AND TOWED. MINIR (ONE GALLON) OF MOTOR OIL LEAKED OUT OF ENGINE COMPARTMENT AND WAS PROMPTLY SOAKED UP WITH SORBENT PADS. NO DIESEL RELEASE. WYCO CREW BEGIN USING VAC TRUCK TO REMOVE WATER AND MANURE FORM THE DITCH, AS WELL AS USING HIGH PRESSURE WATER HOSE FROM TRUCK TO FLUSH MANURE. 1550 HOURS 0 WYCO CREW BACK ONSITE AFTER DUMPING FULL LOAD OF RECOVERED WATER AND MANURE AT LOCAL FARM AND REFILLING WATER TANKS. CREW CONTINUES WORKING DOWN−FLOW TO THE EAST AND PUMPS UP LIQUIDS/WASHING DOWN DITCH. CLEANUP IS SATISFACTORY. CREWS TO CONTINUE TO SMALLER POOLED AREAS BEHIND LAST DAM TO EAST. PER LOCAL DPW, THEY WOULD LIKE THE EARTHEN DAMS REMOVED FROM THE DITCH TODAY AFTER CLEANUP IS COMPLETE DUE TO PENDING RAIN THIS EVENING. DD OFFSITE AT 1610 HOURS AND INSPECTS SMALL CREEK APPROX. 3/4−MILE TO EAST ON DOW ROAD, WHICH IS UNAFFECTED BY THE RELEASE.

11/26/2017: THALL INSPECTS THE AREA AT 16:00. A VERY SMALL AMOUNT (1’ DIA AREA) OF (GREEN−SUDSY) MANURE IS EVIDENT WHERE THE TANKER ROLLED OVER. THE WATER IS RUNNING CLEAR AT ALL POINTS DOWNSTREAM. THE SPILL CONTAINMENT AND MATERIAL RECOVERY OPERATION APPEARS TO HAVE BEEN SUCCESSFUL.

12/5/17: NO FURTHER ACTIONS REQUIRED BY SPILLS UNIT/SPILL FILE CLOSED. CLEANUP ACTIONS WERE PROMPT AND SUFFICIENT.

the farm is spraying liquid manure in both parts of the creek. and is going into the creek. She wants to be anonymous.

DEC Investigator Remarks:

04/12/18 − I spoke with Mabel Usyk. She indicated that Ohms & Sons Farm is spreading liquid manure on a field off of White Mills Road. The spreading is very close to a stream (Klein Kill ?) that goes into the Kinderhook Creek nearby and she is concerned about it entering the stream and impacting the fish and water quality. DP

04/12/18 − Forwarded to Division of Water for followup. CLOSED. DP
